

IT Schedule 70

Summit is a GSA Multiple Award Schedule (MAS) IT Schedule 70 Special Item Number (SIN) 132-51 holder. This contract provides Summit the ability to deliver a broad range of IT Professional Services to meet customer requirements.

Special Item Number (SIN) 132-51 for all IT Professional Services includes the following services:

- Cloud services (all associated labor);
- Programming;
- Cognitive computing;
- Database planning and design;
- Internet of Things (IoT);
- Network services;
- Conversion and implementation support;
- Migration services (of all kinds);
- IT project management;
- Resources and facilities management;
- Systems analysis, design, and implementation; and
- Other services relevant to 29 CFR 541.400.

With the IT Professional Services SIN, customers get:

- Access to pre-vetted, experienced IT solution providers;
- Access to the complete range of IT professional services;
- Innovative and cutting-edge technologies and methodologies;
- Universal labor category set that includes subject-matter experts (SMEs) in any technical field;
- Ability to meet socioeconomic goals with awards to small businesses and other qualified vendors;
- Ability to establish Blanket Purchase Agreements (BPAs) for recurring needs or indefinite requirements over several years;
- Reduced procurement lead times, with no synopsis required;
- Pre-negotiated ceiling prices that can be further discounted;
- Established terms and conditions at the master contract level;
- Flexibility to have customized terms and conditions at the task order level;
- Simplified procurement process for services; and
- More data available to track IT spend.

For more information on this contract, see the [GSA IT Schedule 70](#) website.
