

COMPANY OVERVIEW

Summit Technologies, Inc. is a Service-Disabled Veteran-Owned Business (SDVOB) incorporated in 1992 and headquartered in Panama City Beach, Florida. We have a 30-year track record of continuous growth and a solid reputation for providing successful solutions tailored to our commercial and government customers' requirements. We are certified to the International Organization for Standardization (ISO®) 9001:2015 standard and Cybersecurity Maturity Model (CMMC) Level 2 certified and serve our customers with the well-defined processes these certifications require. Summit also holds a government-approved accounting system and a government-accepted costing policy.

The Summit management team is led by its Chief Executive Officer (CEO), William Funaro. With over 20 years of management experience at the Florida Department of Revenue, coupled with his service as a US Army Infantryman, William is familiar with the technical and practical aspects of defense industry business operations and program administration.

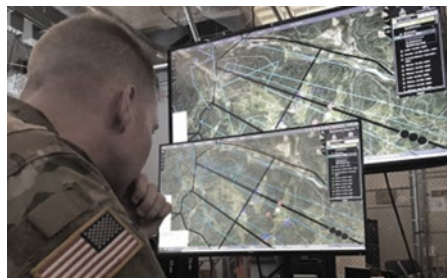

Summit's executive team is fluent in strategic business initiatives and the integrated program management required to successfully execute simultaneous large-scale, complex, and geographically dispersed multiple-award and cost reimbursement contracts.

CORE CAPABILITIES AND SKILLS

Capabilities Development

- ▲ Analysis of Alternatives (AoA)
- ▲ Capability Based Assessments (CBA)
- ▲ Capability Development Documents (CDD)
- ▲ Capability Needs Statement (C-NS)
- ▲ Doctrine Development
- ▲ DOTMLPF-P Assessment
- ▲ Force Modernization
- ▲ Gap Analysis
- ▲ General Test and Evaluation
- ▲ Material Documentation
- ▲ Modeling and Simulations
- ▲ Operational Needs Statement (ONS)
- ▲ Operational Concepts (CONOPS/CONEMP)
- ▲ Requirements Management

Training Support Services

- ▲ Courseware Maintenance
- ▲ Digital Instruction
- ▲ Exercise Planning
- ▲ Guest Speaker Program
- ▲ Instructional Delivery / Support
- ▲ Lesson Learned Analysis
- ▲ Mission Planning Support
- ▲ Mobile Training Teams
- ▲ Operational Plans
- ▲ Registrar / Academic Support
- ▲ Role Players / Emulators
- ▲ Subject Matter Experts
- ▲ Technical Publications and Reports
- ▲ Training Area Support, Safety Protocols, and Logistics
- ▲ Training Development

Information Technology

- ▲ Configuration Management
- ▲ Cybersecurity
- ▲ Command and Control Information Systems
- ▲ Cloud Computing
- ▲ Data Analysis
- ▲ Database Management
- ▲ Geographic Information System (GIS)
- ▲ Help Desk / Desktop Support
- ▲ ISSM / ISSO Support
- ▲ LAN / WAN / MAN Support
- ▲ Media Specialists
- ▲ Network Engineering
- ▲ Software / Database Development
- ▲ Software Logistics / Support
- ▲ Systems Administration
- ▲ Video Teleconferencing
- ▲ Web Design

GOVERNMENT-WIDE CONTRACT PROGRAMS

Summit is a General Services Administration (GSA) One Acquisition for Integrated Services Plus (OASIS+) Multiple Award Contract (MAC) Indefinite Delivery, Indefinite Quantity (IDIQ) awardee and a GSA Multiple Award Schedule (MAS) Information Technology (IT) category IDIQ contract holder. Summit is also an awardee on the Naval Sea Systems Command (NAVSEA), SeaPort Next Generation (SeaPort-NxG) MAC IDIQ.

Summit is an OASIS+ Unrestricted prime contract holder, as well as a Joint Venture (JV) mentor member awardee under OASIS+ Total Small Business and OASIS+ HUBZone socioeconomic categories. Summit provides services-based solutions in the Management & Advisory and Technical & Engineering domains.

Summit is a GSA Multiple Award Schedule (MAS) contractor under Information Technology (IT) Professional Services, Special Item Number (SIN) 54151S. Through this contract, Summit provides a comprehensive suite of IT professional services designed to address diverse customer needs and deliver tailored, high-quality solutions.

Summit is a SeaPort-NxG awardee, positioned to provide a broad range of professional support services for 22 functional areas including Technical, Engineering, Financial Management, and Program Management to meet customer requirements.

SELECT CURRENT AND PAST PERFORMANCE

Mission Planning Support Contract (MPSC) IV – Hill Air Force Base (AFB), UT (Joint Venture [JV] Mentor Member, Prime)

Summit, the mentor member of *ELB Services*, a SDB, SDVOB, and SDVOSB Joint Venture/Mentor-Protégé between Summit and EL Blake Corporation (protégé and managing member), is the prime contract holder of the Mission Planning Support Contract (MPSC) IV. This Department of the Air Force Materiel Command Lifecycle Management Center contract is a single-award, IDIQ, with a \$600M ceiling and a 5-year base period of performance (with a 5-year option). MPSC IV ensures sustainment infrastructure is established to support all Mission Planning Environments (MPEs) and future JMPS Open Mission Systems (JOMS) deployment environments and provides for continued mission planning support of UNIX-Mission Planning System, portable flight planning system, joint mission planning system, and joint precision airdrop systems. Services include:

- | | |
|---|---|
| ▲ Cybersecurity | ▲ Mission Planning Systems Administration |
| ▲ Embedded and Platform-Specific Mission Planning Support | ▲ Software Development and Configuration Management |
| ▲ Foreign Military Sales (FMS) Support | ▲ Technical Publications Development |
| ▲ Hardware Configuration | ▲ Training Analysis |
| ▲ Help Desk and Instructional Support | ▲ Training Design and Development |
| ▲ Operational Test Support | ▲ Training Support Services |

Mission Planning Support Contract (MPSC) III – Hill Air Force Base (AFB), UT (Prime)

Summit was the prime contractor on a five-year, \$250M single-award IDIQ contract for the U.S. Air Force (USAF) Mission Planning Environment, headquartered at Hill AFB, Utah. This contract provided 24/7/365 global mission planning support in USAF wings, groups, and squadrons; Distributed Common Ground System (DCGS); and Air National Guard (ANG) and other units through highly cleared mission and domain expert service support representatives. Under MPSC III, Summit supported over 160 worldwide locations. Services included:

- ▲ Configuration Management
- ▲ Cloud Computing
- ▲ Foreign Military Sales (FMS) Support
- ▲ Hardware Configuration Support
- ▲ Help Desk and Instructional Support
- ▲ Information Systems Cybersecurity
- ▲ Mission Planning Systems Administration
- ▲ Operational Test Support
- ▲ Platform-Specific Mission Planning Support
- ▲ Software Development
- ▲ Software Security
- ▲ Technical Publications Development
- ▲ Technical Training Support Services
- ▲ Training Design and Development

Communications Operations Support Services for the Pennsylvania Department of Military and Veterans Affairs (PA DMVA) (Prime)

Summit provided IT support to the PA DMVA, including administration, maintenance, installation, testing, troubleshooting, programming, configuration, and repair for Cisco® Virtual Topology System (VTS) equipment and video communication servers, mobile operating systems and devices, and Session Initiated Protocol (SIP)/Voice Over Internet Protocol (VoIP). Activities included:

- ▲ Application Specific Subject Matter Expertise
- ▲ Help Desk Support
- ▲ Inventory Control
- ▲ Mobile / Tablet Device Support
- ▲ Operating System Configuration
- ▲ Program Management
- ▲ Server Management
- ▲ Video Teleconferencing (VTC) Support

Maneuver Center of Excellence (MCoE) Mission Support Services Contract (Prime)

Summit is one of four small business primes on this \$207M Multiple Award Task Order Contract (MATOC). This contract supports MCoE by providing general technical, analytical, and operational support to the U.S. Army Infantry School, U.S. Army Armor School, U.S. Army Aviation Center of Excellence (USAACE), Army Futures Command (AFC) Maneuver and Aviation Capability Development Integration Directorates (CDIDs), Army Capability Managers (ACMs), and Air Maneuver Battle Lab (AMBL) in the following areas:

- ▲ Capabilities Development
- ▲ Doctrine Development
- ▲ General Test and Evaluation (T&E)
- ▲ Modeling and Simulations (M&S)
- ▲ Role Player Emulation
- ▲ Training Area Support
- ▲ Mobile Training Teams
- ▲ Training / Exercise Development
- ▲ Army/Joint Air-Ground Operations
- ▲ Instructional Support
- ▲ Lessons Learned Collection and Analysis
- ▲ Mission Command Digital Instruction

U.S. National Guard Bureau (NGB) – Professional, Administrative, and Support Services (PASS), Schedule VI (Prime)

Summit was the sole awardee of a \$70M IDIQ contract to provide IT Services to the National Guard mission nationwide, at Major Command (MAJCOM), Base, Post, or State office level in the 54 states and territories and the District of Columbia. The contract was available to any Department of Defense (DOD) activity and provided a full range of non-personal IT services to achieve maximum effectiveness and economy in operations in support of the National Guard. Summit provided:

- ▲ Computer Analysts, and Programmers
- ▲ Computer-Based Training (CBT) Specialists/Trainers
- ▲ Configuration Managers
- ▲ Database Administrators
- ▲ Help Desk Personnel
- ▲ IT Program and Project Managers
- ▲ Media Specialist
- ▲ Network Administrators
- ▲ Network Engineers
- ▲ Personal Computer Support Technicians
- ▲ System Administrators
- ▲ Telecommunications Engineers
- ▲ Video Teleconference Technicians
- ▲ Web Designers

Maneuver Support Center of Excellence (MSCoE) – Training and Doctrine Command (TRADOC) Service School Support (Prime)

Summit was one of three small business primes on this \$100M IDIQ. The main objective of this contract was to provide the MSCoE general technical, analytical, and operational support for U.S. Army Chemical, Biological, Radiological, and Nuclear School (USACBRNS), U.S. Army Engineer School (USAES), U.S. Army Military Police School (USAMPS), MSCoE Capability Development and Integration Directorate (CDID), and the MSCoE Directorate of Training. Services included:

- ▲ Battle Lab Support (Data Analysis)
- ▲ Capabilities Development
- ▲ Doctrine Development
- ▲ Exercise Development
- ▲ Force Modernization
- ▲ General Test and Evaluation (T&E)
- ▲ Geospatial Support
- ▲ Instructional Support / Training Development
- ▲ Mission Command Digital Instruction
- ▲ Modeling and Simulations

U.S. Army Geospatial / Geographic Information System (GIS) Support Services (Prime)

Summit provided support to the U.S. Military Academy (USMA) Installation and its organizations, to create, maintain, analyze, interpret, and present data using a GIS. This included developing, maintaining, and supporting consistent, accurate, and easily accessible GIS data layers using Environmental Systems Research Institute (ESRI) and GIS software; Microsoft Access; AutoCAD and Revit software; ERDAS and MrSID image software; and other commercially available products. Services included:

- ▲ 3-D Terrain Surface Model Development
- ▲ Custom Graphics Support
- ▲ Geodatabase Modeling
- ▲ GIS Data and Maintenance
- ▲ GIS Training
- ▲ Global Positioning System (GPS) Field-Data Collection
- ▲ Mapping and Analysis Support
- ▲ Posting GIS Data to Army Mapper / Website
- ▲ Program and Project Management Support
- ▲ Spatial Data Standards Compliance

Joint Requirements Office for Chemical, Biological, Radiological, & Nuclear Defense (JRO-CBRND) Doctrine, Training, Leadership, & Education (DTL&E) Support (Prime)

Summit was the sole awardee on this \$8.7M effort to provide technical and subject matter expertise in CBRN Defense (CBRN-D)/Combating Weapons of Mass Destruction (CWMD), Joint and Multi-service doctrine development, and Joint Service training, education, and exercise support to Joint Staff J8, JRO-CBRND. We provided instructors and subject matter experts (SMEs) in support of Resident Army and Joint-level courses at Joint and Service War Colleges, Command and Staff Colleges, and Service Schools. Summit provided:

- ▲ CBRN-D Subject Matter Experts
- ▲ Exercise Observers, Evaluators, and Mentors
- ▲ Exercise Planning and Development
- ▲ Exercise Role Players / Emulators
- ▲ Instructional Delivery and Support
- ▲ Joint Professional Military Education
- ▲ Joint Publication Reviews and Development
- ▲ Mobile Training Teams
- ▲ Operational Plans
- ▲ Senior Leader Seminar
- ▲ Tactics, Techniques & Procedures Development
- ▲ Training Development and Support

U.S. Army Maneuver Battle Lab (MBL), Fort Benning, Georgia (Subcontractor)

Summit assisted SAIC in fulfilling the Fort Benning MBL's requirement for comprehensive support services. Summit provides analytical support to Army Futures Command (AFC) modernization efforts. Typical exercises range from a squad-sized event with a 4-6 week planning and execution cycle to a brigade-sized event with a 6-12 month planning and execution cycle. MBL conducts multi-service, cross-domain maneuver experiments in live, virtual, constructive, and gaming environments.

Tactical representation of units includes organic equipment personnel and equipment with higher echelon and joint enablers. Summit personnel provided experimentation support through: planning and preparation guidance by providing:

- ▲ Capabilities Development and Integration
- ▲ Data Collection and Analysis
- ▲ DOTMLPF-P Assessments
- ▲ Experimentation (Data Curation)
- ▲ Gap Analysis
- ▲ In-Process Review / Briefing Development
- ▲ Logistics / Transportation Support
- ▲ Planning and Preparation Guidance
- ▲ Program and Project Support
- ▲ Simulation Operators
- ▲ Technical Report Development
- ▲ Training Area Safety Protocol and Logistics

U.S. Air Force Weather Agency (AFWA), Systems Engineering, Management, and Sustainment (SEMS) III (Subcontractor)

The Air Force, Army, special operations forces, and other military organizations rely on AFWA environmental information and forecasts for mission planning, combat operations by military units in the field, and airfield and flight operations. The SEMS III program provided enterprise-level planning, integration, modification, and system support to the AFWA. Services included:

- ▲ Configuration Analysis
- ▲ Configuration Management
- ▲ Data Analysis
- ▲ Logistical Analysis
- ▲ Logistics Management
- ▲ Modification Fielding
- ▲ Requirements and Lifecycle Cost Analysis
- ▲ System Development
- ▲ Systems Engineering
- ▲ Systems Integration
- ▲ Systems Performance Evaluation
- ▲ Systems Sustainment
- ▲ Systems Testing
- ▲ Technical Reporting

Global Adaptive Planning Collaborative Information Environment (GAP CIE)(Subcontractor)

Summit, as a subcontractor to Northrup Grumman, provided software engineering support to the GAP CIE, a web-based, collaborative Joint Operation Planning (JOP) tool that supports distributed participants in multiple security enclaves (primarily Secret Internet Protocol Router Network [SIPRNET]) and Joint Worldwide Intelligence Communication System (JWICS). GAP CIE is comprised of two functional components supported by Commercial Off-the-Shelf (COTS) software products: the GAP CIE planning environment and the Global Situational Awareness Tool (GSAT). GSAT provides situational awareness of global events in a sharable, user-defined operational picture for viewing geospatial, temporal, relational, and tabular Course of Action (COA) planning data. Services included:

- ▲ Configuration Analysis
- ▲ Data Analysis
- ▲ Implementation and Testing
- ▲ Software Engineering
- ▲ Software Maintenance / Support
- ▲ System Development
- ▲ Technical Reporting
- ▲ Web-Based Application Support

U.S. Army Counter Explosive Hazards Center (CEHC) Planners Course Instruction (Prime)

Summit provides expert instruction for the U.S. Army Counter Explosive Hazards Planners (CEH-P) Course on awareness and defeat of explosive hazards based on current threats. Summit provisions qualified instructors who effectively convey technical material and programs, maintain professional subject matter proficiency, and are well versed in course information, outcomes, goals, and standards. All work is accomplished according to guidelines published in TRADOC Regulation (TR) 350-70 in a classroom environment using simulation and advanced planning tools. Scope of work included instructional mobile training teams to agencies Contiguous United States (CONUS) and Outside Contiguous United States (OCONUS), including:

- ▲ Emerging Technology Research
- ▲ Instructional Delivery
- ▲ Instruction Development
- ▲ Intelligence Analyst Subject Matter Experts
- ▲ Lessons Learned Collection and Analysis
- ▲ Mobile Training Team Deployments
- ▲ OCONUS Agency Instruction
- ▲ Subject Matter Experts
- ▲ Training Development

Dragon Operation Centers & Ground Control Stations Maintenance & Support (Subcontractor)

This contract provided maintenance and support for the Dragon Operations Center-Cannon AFB, New Mexico (DOC-C) and Dragon Operation Center-Nellis AFB, Nevada (DOC-N) for the 3rd Special Operations Squadron (3 SOS) and their associated Air Force Reserve unit's MQ-1 Predator and MQ-9 Reaper operations. The DOC-C / DOC-N are a system of systems providing critical command and control data and voice interconnectivity enabling pilots and sensor operators to fly and control Combat Air Patrols (CAPs) Predator/Reaper aircraft worldwide in direct support of the warfighter. As a subcontractor to SAIC, Summit provided the staffing support to maintain the DOC-C and DOC-N functional capabilities required to conduct worldwide flight operations. Activities included:

- ▲ Configuration Control
- ▲ Information Assurance Planning
- ▲ Long-Haul Communications Support
- ▲ Network and Computer Management
- ▲ System Enhancement
- ▲ Technical Reports Development

NORTH AMERICAN INDUSTRY CLASSIFICATION SYSTEM (NAICS) CODES

- 541330 Engineering Services
- 541511 Custom Computer Programming Services
- 541512 Computer Systems Design Services
- 541513 Computer Facilities Management Services
- 541519 Other Computer Related Services
- 541611 Administrative Management and General Management Consulting Services
- 541614 Process, Physical Distribution, and Logistics Consulting Services
